

This architectural drawing shows a detailed elevation of a building facade. It features a symmetrical arrangement of windows and doors. The central section contains a large, ornate doorway flanked by tall, narrow windows. Above this central entrance is a decorative pediment. On either side of the central section, there are rows of smaller, square windows. The facade is characterized by a grid-like pattern of windows and doors, with decorative moldings and pilasters separating the openings. The drawing is a black and white line drawing, typical of architectural plans.
